Stay Sharp

It's attention to detail that helps you look polished and communicate confidence. There's nothing worse than realizing you have a floppy collar on your dress shirt before you enter a big meeting or board a plane. Chances are, you won't have collar stays at your desk or in your carry on doppel kit. This is why entrepreneur **Jordan Eisenberg** invented the **Collar Card**, a plastic card that fits in your wallet with pop-out collar stays.

The sleek tool that includes 4 collar stays is no bigger than a credit card, so you can carry it in your wallet and always have it on hand. Consider it one thing on your to-do list that is permanently checked off. And just as easily as the stays pop out, they stick back in the card for future use.

You can find the Collar Card online at CollarCard.com for \$1.99, or \$4.99 for a 3 pack. Whether you're traveling for business or leaving the house in a hurry, the portable stays are a compact way to help you look polished.
